This ebook can be worthy of a read, and much better than other. I have read and i am certain that i am going to planning to go through again once again in the future. You may like just how the writer compose this book.

Fate brings two strangers from two different worlds together. Love unites them. Evil tears them apart. Dinah isn't just any private investigator from the multiverse. She specializes in violent cases across the multiverse, and she has never lost a case until her best friend becomes the latest victim of a mass murder. The only clue she could find is from Arik, an Oxford university professor on Earth. The problem is, not only he's human - a complicated kind of creature that she finds hard to understand - he holds many secrets that put himself and those he loves in danger. She reaches out to him. He agrees to help. She gets close to the truth behind her friend's death. But she can't solve the case without putting Arik in the crossfire between his haunting past and her daunting future. She could walk away from the case, from Arik and the information that a supernatural war is descending on human kind. But she decides to stay and get involved, knowing that it might be the point of no return to her peaceful life in a universe faraway from this polluted place called Earth.
